

## Possible Contents for Finalist Information Packet

Academic Units should coordinate with their college offices in providing information packets to Finalists. All Finalists should receive the same packet of materials. Please consider the Finalist's perspective when deciding which components below are appropriate for the packet. In addition, consider which components should be included as paper copy and which components could be included in a list of website links (and confirm the links are functioning correctly). The web addresses included below were last verified on October 17, 2016.
