Assistant Professor in Algebra or Topology

The Department of Mathematics and Statistics at Bowling Green State University invites applications for a tenure-track position in algebra or topology at the rank of Assistant Professor starting August 2019. Competitive salary with full benefits. Minimum qualifications: must have satisfied all the program requirements of a doctoral degree in mathematics with research area in algebra or topology by the start of employment (August 2019); demonstrated research productivity through one or more published or in press refereed journal articles or book chapters in leading venues of mathematics. Preferred qualifications: postdoctoral experience; experience seeking external research support; experience teaching mathematics or statistics courses.

For a complete job description & instructions on how to apply for this position, visit the website: https://bgsu.hiretouch.com/. (Clicking anywhere on this document leads to the website.) All applications are accepted and processed through the HireTouch website. For an application to be considered as complete, submit (1) a letter of application (cover letter), (2) statements of both teaching and research interests that include experience to date and describe goals for the future, (3) current curriculum vitae, (4) a statement of commitment to diversity in higher education, (5) three current (dated within the past year) letters of reference, and (6) transcripts indicating the highest degree earned. Finalist will be required to submit official transcripts and to authorize and pass a background check prior to an offer of employment being made.

Application deadline: November 15th, 2018.

The Department of Mathematics and Statistics at BGSU enjoys a nationally ranked doctoral program that offers a full range of graduate programs including two doctoral degree programs (PhD in Mathematics and PhD in Statistics) and undergraduate major programs in pure math, applied-math, statistics, actuarial science and data science. The department includes 31 full-time faculty members, more than 70 graduate students and about 100 undergraduate majors. The faculty are committed to excellence in teaching, research and service.
