Mission
The mission of the School of Media and Communication (SMC) at Bowling Green State University is to promote and extend the study of communication processes ranging from interpersonal transactions, development and health communication, rhetoric, social movements, to mass-mediated communication, emerging media, cyber culture and computer-mediated communication. The School endeavors to create a premier learning community for master's and doctoral students by promoting graduate student participation in regional, national and international conferences, forums, and journals. The School maintains numerous partnerships to nurture collaborative teaching, innovative research, and significant public service. With a tradition of excellence in graduate study dating back to the 1950s, the faculty, staff, and students of the School of Media and Communication look forward to contributing to today's media and communication scholarship as well as its education and practice.

The graduate program of the School of Media and Communication (SMC) is known for its excellent placement records; its balance in teaching, research, and service; and the diversity of its student body. The key commitment of the SMC faculty is to motivate and educate students to be independent intellectual leaders and professionals.

The coursework and faculty research in the School of Media & Communication is organized around three areas of emphasis. These areas are the basis for coursework offered by the School, and inform the different academic options in the MA program:

Global Communication and Social Change
This area of emphasis draws together several key and complementary dimensions of humanistic research methods, substantive areas and theory. These include Intercultural and International Communication, Development Communication, Social Movements and Activism, Alternative and Activist Media, Political Economy, Rhetoric, Organizational Communication. The area is modeled on the "Global Communication & Social Change" division that exists at the International Communication Association. At ICA, Global Communication & Social Change is described as an emphasis "to encourage and debate research on issues of production, distribution, content and reception of communications media at global, 'glocal,' transnational, transcultural, international and regional levels. Within this purview it encompasses work across a wide variety of theoretical and methodological approaches, concerning issues of media-mediated communication in cultural, economic, political or social contexts, including strategic mediated communication for development, social change or social justice." We adopt this approach to an integrated cultural-economic-political and critical engagement with social problems that often extend beyond localities to international and global processes.

Interpersonal Communication
This area of emphasis examines interaction processes in a variety of social and personal relationships such as romantic relationships, family relationships and friendships in face-to-face and mediated settings. Research and coursework within the area focuses on relationship processes in contexts such as health, sexuality, identity negotiation, relationship maintenance, information management and technology. Varying theoretical (e.g., narrative, dialectical, social exchange, disclosure theories) and epistemological perspectives (post-positivist, social scientific, interpretivist, feminist, queer, critical) are explored.

Media Audiences & Processes
This area of emphasis uses a social scientific approach to study the behavior of audiences and the process of how media content and technology influence the public agenda and individuals’ attitude, emotion, knowledge and interpretation of society. These include Media Technology Adoption, Advertising and Social Media Consumption, Persuasion Process, Effects and Effectiveness of Advertising and Social Media, Effects of Media Narratives, Audience Theories, Audience Research Methods, Media Psychology, Media Sociology, Media Industry Analysis, Social Network Analysis, Public Opinion, and Media Effects on Race, Gender and Society. This emphasis includes both administrative applied research and theoretical research on these topics. The research orientation is based on a quantitative approach and emphasizes the provision of generalizable empirical evidence in answering pertinent issues in media audiences and processes.
MA Degree Options

There are several degree options available to students pursuing the Master of Arts Degree in the School of Media & Communication. Students may seek a degree that prepares them for a PhD program and a career in academia, or they may pursue a degree that allows for professional development. This handbook is designed for students interested in the first option, while students seeking professional development should look to the School of Media & Communication Graduate Student Handbook for the Master of Arts specialization in Strategic Communication. For those students seeking an MA that will prepare them for the rigors of PhD study and academia, the School of Media & Communication offers the following degree options:

Generalist Study: The generalist option allows for MA students to explore the different areas of emphasis within the School of Media & Communication, and build a knowledge base that will prepare them for further academic studies. During their time in the program, MA students have the freedom to take coursework across all three areas of emphasis. If they so desire, they may concentrate their coursework in one area, or they may take courses across multiple areas. There are advantages and disadvantages to each approach, and MA students pursuing the generalist option should consult with an advisor about how they should proceed.

Specialization in International/Intercultural Communication: This specialization is closely aligned with the School emphasis in Global Communication & Social Change. Students take coursework that provides theoretical and conceptual grounding concerning topics related to international and intercultural communication. In addition, students take methods courses that prepare them for the rigors of a thesis or research project, should they choose either of those plans to complete the degree.

Specialization in Social & Interactive Media: This specialization is closely aligned with the School emphasis in Media Audiences & Processes. Students take coursework that provides theoretical and conceptual grounding concerning topics related to social and interactive media. In addition, students in this specialization may take some coursework associated with the Strategic Communication specialization that provide insight concerning practical and commercial uses of those media. Finally, students take methods courses that prepare them for the rigors of a thesis or research project, should they choose either of those plans to complete the degree.

Time to Complete Degree

The master's program generally takes full-time students in the non-thesis plan about three to four semesters to complete. Students on the thesis plan will need more time. MA students must complete all their degree requirements in 6 years. After the passage of that time limit, courses taken before 6 years each for MA students must be revalidated by the Graduate College.

Funding

All regular assistantships are half-time appointments, which require students to work 20 hours a week. In most cases, graduate assistants teach or assist with teaching two courses. Students may not accept other offers of employment for the time they are contractually obliged to work as graduate assistants.

Continued funding is dependent on a student’s satisfactory progress toward degree, and his/her fulfillment of contractual duties outlined in the assistantship responsibilities. Students who do not make satisfactory progress or who do not fulfill their duties may have their funding reduced or eliminated altogether.

While on assistantship, graduate assistants are contractually obligated to maintain full-time student status (8 credit hours or more) during each fall and spring semesters. Funding offers only cover the fall and spring semester of an academic year. In rare cases, summer funding opportunities may be available and usually awarded to advanced doctoral students with strong teaching and academic record.

Typically, funded students receive a scholarship in the form of tuition waiver (instructional fee) during the academic year. In addition, doctoral students will receive a scholarship in the form of summer semester tuition waiver during the first two years.

Funded MA students who are making satisfactory progress are eligible to apply for second year funding. To apply for second-year funding, students must submit an application to the graduate secretary by March 1 of their first academic year of funding.

Course Load

Most Media & Communication (MC) classes are three credit hours. Students who are currently
working their way through coursework typically enroll in 9 hours (3 courses) in the fall and spring semesters and 6 credit hours (2 courses) in the summer session. Funded students who have completed their coursework must enroll in at least 4 credit hours. Once a graduate student begins work on a master's thesis, s/he must be continuously enrolled in thesis hours during fall and spring semesters until graduation. Otherwise, the student will have to apply for readmission to the Graduate College and pay for the requisite credits then.

Transfer of Credits/Course Waiver
Students are eligible to apply for up to 9 hours of transfer credit from another accredited master's program or from BGSU graduate-level classes completed as an Advanced Undergraduate or Non-Degree Graduate Student. Should a student receive a waiver for a particular course, s/he will need to complete an elective course to make up the overall credit hours required. Waivers must be requested in writing, which should be submitted with proper documentation of prior coursework to the Graduate Coordinator.

Graduate Orientation
All incoming graduate students are required to participate in Graduate Orientation. This takes place one week before the fall semester starts. Returning students have participation obligations each year during orientation week within the school. All returning funded students should report by the beginning date of each year's contract.

Travel & Research Funding
The School of Media and Communication has limited funds available to assist full-time graduate students with travel and research expenses. Students who have peer-reviewed papers may apply for funding to attend a conference. Travel expenses to present papers at conferences can be reimbursed up to $200, but the amount is subject to change, depending on the fund availability. No student is funded more than once in one fiscal year, from July 1 to June 30. Students must apply for funding at least 14 days prior to conference attendance. Documentation in the form of email notification of acceptance or program copy should accompany the application; the conference program must list BGSU as the student's institution. The Graduate Coordinator must sign the application form. Travel reimbursement also requires students to submit a request after their travel, as instructed on the travel fund application form. To qualify for travel reimbursement, a student must be 1) a full-time MC graduate student, and 2) taking coursework, or enrolled for four or more graduate credit hours, if completed coursework.

Style Guidelines
Scholarly style and convention should be followed in all written work in Media and Communication. The manual used should be appropriate to the subject matter. The latest editions of the American Psychological Association's Publication Manual, Turabian's A Manual for Writers of Term Papers, Theses, and Dissertation, the Modern Languages Association Handbook and The Chicago Manual of Style are acceptable manuals. However, if an instructor requires a specific style guide, students should follow as required by the instructor.

Forms
All forms mentioned herein can be found on the BGSU Graduate College Website (http://www.bgsu.edu/graduate/documents-and-forms.html) or SMC website (http://www.bgsu.edu/smckgrad). Important forms for students to complete during their time in the School of Media and Communication include:
- For MA students: Change of Advisor Form, Topic Approval Form, ETD Submission/Approval Form (MA Plan I only), Examination Schedule (MA Plan II only), Comprehensive Exam/Project Approval (MA Plan II only). Students must complete all forms before submitting them to faculty, advisors, and/or administrators for signatures. All forms that go to the Graduate College must go through the Graduate Secretary in the School office. Students are strongly encouraged to keep a copy of completed and signed forms in their personal records.

Degree Audit Proposal Report System (DARS)
While completing coursework, graduate students need to make appointments with their advisor to go over their DARS report. Students should do this each semester (fall and spring). During their discussion with their advisor, students should go over the courses that they have taken, and which degree requirements that they fulfill. They should also discuss the courses that they will take in order to complete other degree requirements.
Academic Honesty Policy
The graduate program of the School of Media and Communication is committed to the University's standards on academic honesty as expressed in the University Charter and Student Code. This statement supplements those provisions. As these documents note, cheating and plagiarism are destructive to the central purpose of the University and never tolerated.

Policy Definitions
As defined in the charter and code, violations of academic honesty include:

Plagiarism: Representing the words or ideas of another as one's own in any academic exercise.
Cheating: Using or attempting to use unauthorized materials, information or study aids in any academic exercise.
Fabrication: Falsification or invention of any information or citation in any academic exercise.
Facilitating Academic Dishonesty: Helping or attempting to help another commit an act of academic dishonesty.

Policy Applications for Media and Communication Graduate Students
A. Students must always be very careful to acknowledge any kind of borrowing that is included in their work, not only in words but ideas. Acknowledgment of whatever is not one's own work is the proper and honest use of sources. Ignorance of citation style is no excuse. Style manuals provide extensive information on appropriate forms of citation.
B. Unless explicitly permitted by the professor, students shall not submit any work that the student himself/herself prepared for any other purpose, including work prepared for other classes or for other degree programs.
C. Unless explicitly permitted by the professor, students must work independently on take-home examinations. Consultations with other students or other individuals over the content of take-home exams are forbidden. All information provided in response to take-home examination questions that are not the student's own work must be fully credited to its source.
D. The use of professional term paper services or research services is always forbidden.
E. Students are always responsible for the data collection and analysis in works that they represent as their own, unless the work in question is explicitly credited to the source.
F. Students should take great care to comply with professional standards in regard to submission of their work to professional conferences and journals.

Enforcement & Penalties
Faculty members will report every instance of academic dishonesty to the Graduate College and keep the Graduate Coordinator informed in the process. At BGSU, students who plagiarize are subject to penalties described in the student code, ranging from failure on an assignment to dismissal from the University.

Probation & Dismissal
It is possible for a student to lose funding at the end of a semester and be placed on academic probation (without funding) for the subsequent semester. Graduate students are required to demonstrate "satisfactory progress toward the degree" in order to maintain a teaching, administrative, or research assistantship. Failure to make satisfactory progress normally results in academic probation and may lead to dismissal from the program. Satisfactory progress means that a graduate student must maintain a cumulative GPA of 3.0 or higher. This GPA requirement applies to all graduate students at BGSU, including those who are currently enrolled as non-degree seeking students. Unsatisfactory progress is also indicated by the accumulation of two or more C's, a D, or an F. Students who are placed on or continued on probation will be notified in writing by the Graduate College.
In general, students should not remain on probation for more than two semesters; if satisfactory progress seems unlikely after one or two semesters on probation, the student is likely to be dismissed from the program.

Consensual Amorous Relationships Policy
On June 22, 2007, the Board of Trustees of BGSU approved the statement below to cover all university employees:
“The university takes seriously its duty to provide a place to study and work free of situations that may be construed as abuse of authority, an inappropriate conflict of interest, preferential treatment, or other unprofessional and unethical conduct. The policy below is established in order to avoid such instances.
1. Within the University community, supervisors and faculty are not to have supervisory, evaluative, instructional, coaching, advisory, or other relationships with students or employees with whom they have or have had a consensual amorous relationship.
2. If an amorous relationship exists or develops,
the faculty or staff member of superior rank must disclose the relationship to his/her immediate supervisor in a timely manner. The supervisor will then take steps to make alternate arrangements affecting one or both parties, to effectively discontinue any supervisory, evaluative, instructional, coaching, advisory, or other formal connections between them. If possible, such arrangements should be made in ways that respect the interest of all involved and will not be prejudicial toward or against either party.

3. The decision of an immediate supervisor may be appealed by either or both parties to the next higher administrative level.

4. Disclosure is the responsibility of those who engage in, or are about to engage in, amorous relationships within the University community. Failure to abide by this policy may result in disciplinary actions taken against any negligent party. The range of disciplinary actions would depend upon the circumstances and culpability of those involved. Disciplinary actions may include, but are not limited to, a verbal warning, a letter of warning, temporary reassignment, temporary suspension or other measures, as the case may warrant. The imposition of faculty sanctions beyond the written warning should abide by the policy on sanctions contained elsewhere in the Academic Charter. Disciplinary actions regarding administrative staff and classified staff are administered by the Office of the Executive Vice President; disciplinary actions regarding faculty are administered by the Office of the VPAAProvost.” [Source: A Handbook of Commonly Shared Employment Policies for BGSU faculty, Administrative and Classified Staff 10/07]

Incomplete Coursework
The School of Media and Communication follows the policy of the Graduate College regarding incomplete coursework. The policy, applied to both degree and non-degree seeking students, is as follows:
An INC (incomplete) may be given only when, for some justifiable reason, a student fails to take the final examination or to fulfill a specified requirement in a course.
An INC may be removed and a grade substituted if the student completes course requirements to the satisfaction of the instructor prior to the deadline established by the Graduate College. The Graduate College deadlines for removal of incomplete grades for the respective academic semesters are:

- Fall semester: June 1
- Spring semester: September 1
- Summer semester: January 1

However, an individual instructor may come to an agreement with his or her student for an earlier deadline for removal of an incomplete grade.

The graduate dean designee has the authority to extend the deadline for an incomplete. The student must petition the graduate dean designee for such consideration in writing and prior to the expiration of the deadline. The instructor’s support is required for approval of the request.

For courses taken S/U, any mark of INC not removed by these deadlines will change to U. For courses taken for a letter grade, any mark of INC not removed by these deadlines will change to F. A student cannot graduate with a grade of INC.

Graduation
Students must apply for graduation early in the semester they plan to graduate. Students file the form directly with the Graduate College. Students are eligible for graduation if they have fulfilled all their academic program requirements and met all the Graduate College deadlines and have applied for graduation.

MASTER OF ARTS

The master's degree in Media and Communication is designed to relate theory and practice in order to equip students to pursue their post-graduate goals, whether they decide to go on to doctoral studies or to transition/advance their professional careers. Students must complete the degree within 6 years from the end of the semester of the first course.

The basic requirements for the master's degree are established by the Graduate Council of the Graduate College and are published in the current Graduate Catalog available on the BGSU Graduate College line at the BGSU website. Additional Media and Communication program requirements are described in this handbook.

Degree Requirements
The master's program requires a minimum of 30 credit hours. Students must maintain a 3.0 cumulative GPA in all coursework, and have no incomplete grades in graduate coursework. MC 6000, MC 6300, and MC 6400 (total 9 credit hours) are required for all master’s students.

The online and off campus versions of this
course can be taken by those MA students who do not intend to pursue a PhD program. Students are then required to earn 18 additional course credits and 3 credits in thesis research or readings for master's project/comprehensive exam. Overall, 18 of the credit hours in the program must be from 6000/7000 level courses. This means that students may take 3 courses at the 5000 level. A maximum of 6 reading hours (e.g., independent study, internship, individually conducted practicum or workshop) may count toward the additional course credits. Master's students are encouraged, but not required, to participate in the Colloquium in Media and Communication.

For the capstone, master's students choose between two options: Plan I entails writing a thesis, and Plan II entails taking comprehensive examinations or conducting a major project. Students opting for the exams or project usually complete their degree in three to four semesters; Students pursuing a thesis will need more time. No more than three credits earned in a thesis or a project may count toward the degree. It is strongly advised that students who wish to go on for study in a PhD program complete Plan I.

Coursework
Students who pursue the generalist option are free to take any coursework beyond the three core courses noted above. Students engaged in one of the two specializations need to complete a specific set of courses to complete their degree:

International/Intercultural Communication:
- MC 5080: Intercultural Communication
- MC 5090: International Communication
- Choose two of the following:
  - MC 5040: Communication & Conflict
  - MC 5670: Gender, Media & Culture
  - MC 5750: Perspectives on International Media
  - MC 7610: Race & Communication
  - MC 7630: Communication and Social Change
  - MC 7650: International Media
- Two electives at the 6000/7000 level

Social & Interactive Media:
- MC 5640: Practicum in Interactive Online Media Production OR LRND 6700: Principles of Multimedia Design and Courseware Design
- MC 6552: Social Media Seminar
- Choose two of the following:
  - MC 5050: Mediated Cultures & Identities
  - MC 5610 Audience Research
  - MC 5700: Electronic Surveillance & Privacy
  - MC 6551: Public Relations Research Practice
  - MC 6553: Advertising Research & Practice
  - MC 7370: Seminar in New Media Research
- Two electives at 6000/7000 level

Online Courses
MA students are free to take online courses throughout the academic year to complete their coursework. However, federal regulations stipulate that international students may only take one online course per semester.

Advising
A member of the Graduate Program Committee will serve as the temporary advisor, and can address questions that incoming students might have concerning their program of study and coursework. By the end of the students' first semester of study, they need to select a permanent advisor and submit the Change of Advisor form to the Graduate Coordinator for approval. Selection of an advisor will be made on the basis of: (1) the student's research interest and preferences; (2) the requested faculty member's availability and preferences; (3) approval of the Graduate Coordinator based on the qualifications of the faculty member to direct the type of research involved and the number of advisees s/he may have. If there is a change in advisor, the student should make sure to file the Change of Advisor form and seek approval from the Graduate Coordinator. Unapproved advisor changes will be deemed void.

MA Thesis (Plan I)
Completion of a thesis should demonstrate that a student is sufficiently acquainted with research methods to replicate or supplement existing research or undertake original research. Students who opt for Plan I should anticipate taking two years (or four semesters) to complete their degree. A proposal must be developed in consultation with the chair of the thesis committee. It should include, at least: (1) a statement of the problem, (2) a justification or rationale for the research; and (3) the procedure
or research design. Research involving human participants requires approval of the Human Subjects Review Board before gathering data. Students may enroll for as many thesis hours as necessary, but only three hours of thesis credit count toward the degree.

**Thesis Committee**
The committee for a thesis will include three faculty members: An SMC advisor who will act as the chair, another SMC faculty member, and a third faculty member who may be from SMC or another department.

**Thesis Proposal**
The thesis proposal must be submitted to committee members at least two weeks prior to the proposal defense date. At the time of proposal distribution, the student should also inform their committee of the time and place of defense. Formal approval of the proposal and committee by the Graduate College is sought by submitting a Request for Thesis Topic Approval form. This form should be printed and prepared prior to the proposal defense meeting to facilitate signatures of faculty and the Graduate Coordinator. Students may not submit the request until their completed MPPs have been approved by the GPC.

**Thesis Defense**
Students should work with their advisors as they develop their thesis. They should keep other committee members informed of their progress and, if deemed appropriate, should work with them to seek comments on each chapter. Once the advisor accepts the work, the student copies (at own expense) the thesis for the entire committee. Students must distribute thesis copies at least two weeks prior to the date of the oral defense.

The thesis copies provided to the committee members must be complete, readable, and fully documented. The advisor will poll the thesis committee and, if necessary, convene it to determine if the thesis is defensible in form and content. If the committee indicates that major revisions are needed, the advisor and candidate will develop an appropriate plan to complete the suggested revisions. The oral exam may be postponed until such revisions can be made. The student should schedule the oral examination by coordinating the availability of all committee members. All members must be present face-to-face or via technology. The student should also confirm the place of defense with their committee when scheduling the oral examination. The room is reserved through the Graduate Secretary.

A thesis defense is open to the public and notice of the event must be posted in West Hall. If a student fails the oral defense, s/he will be asked to do one of the following:
- Rewrite all or part of the thesis.
- Execute a second thesis on the topic.
- Select a new topic and do another thesis.
- Report a failure to the Graduate College.

Students may be asked to rewrite portions of their theses even though they have passed their oral exams. Some rewrite time should be allowed between the oral defense and the deadline for submission of the finished work to the Graduate College.

**Thesis Submission**
Students should use the university’s guidelines on Theses and Dissertations to prepare the final version of their work. When submitting the completed thesis to the graduate college, follow the guidelines for electronic submission of the thesis found at the graduate college website: [http://www.bgsu.edu/graduate/thesis-and-dissertations/submission-and-approval-of-your-manuscript.html](http://www.bgsu.edu/graduate/thesis-and-dissertations/submission-and-approval-of-your-manuscript.html). The electronic copy is the final copy and must be transmitted successfully to the Graduate College in order to graduate.

**MA Project (Plan II Option 1)**
The option may be elected to fulfill degree requirements by students whose professional-academic goals are more appropriately served by a project rather than a thesis, and/or when the topic warrants an alternative method of investigation other than a theoretical/thesis approach. Completion of the MA project demonstrates that a student is sufficiently acquainted with research/creative methods to replicate or supplement existing research, or undertake original research or creative scholarship. As an expression of graduate-level study, the project should achieve a creative or intellectual rigor that far surpasses an undergraduate “honors” or “capstone” experience.

**Project Committee**
The committee for a Plan II project comprises two faculty members: SMC graduate faculty advisor who will act as the chair and a second SMC graduate faculty member. When appropriate, a third member whose expertise is related to the project can be invited.
Project Proposal
Before proceeding with the development of a Plan II project, the student must develop and present a proposal to the project committee and receive written approval from the committee to proceed. To initiate the proposal defense, the student must submit a Request for MA Project Topic Approval form to the School office. This form should be prepared and printed prior to the proposal defense meeting to facilitate signatures of faculty committee members and the Graduate Coordinator. The purpose of the committee review and the proposal defense is to ensure the student has properly reviewed existing literature and/or appropriate foundational material, has selected a topic that is suitable for graduate study in project form, and has designed a suitable plan to both initiate and complete the project according to SMC standards.

Project Content and Design Elements
MA projects can take various forms including, but not limited to the following: digital humanities project; documentary video; screenplay or teleplay; application of new or emerging communication or media technology; original television series or pilot; research-centered photojournalism essay; in-depth, coherent series of investigative journalism reports; an extensive community outreach project related to health care or strategic communication; comprehensive website focused on a coherent theme; an applied communication project in organizational or health communication; or work of creative scholarship, for example, that could be accepted by the Performance Studies Division of the National Communication Association, the Festival of Media Arts of the Broadcast Education Association, or a similar juried competition. In all cases, the MA project must be significant and unique and should include theoretical/creative foundations pertinent to the topic. Although this may not be theoretical in the form of a thesis, it must still be produced within a scholastic and/or creative context and having equivalent rigor. The project requires a literature and/or media review; a statement of purpose or research question; expression of what the project intends to deliver to the field of media and communication; a consideration of the ultimate audience; the actual project elements, which may take various forms; a proposed schedule for completion (and budget, if necessary); and, in addition to the proposal and final project elements, an analytic paper that must accompany the final defense and submission of the project.

Mater's Project Hours Enrollment
Enrollment should be done through MC 6910 (1-3 S/U) with the signatures of advisor and Graduate Coordinator. A maximum of three credit hours will count toward the degree.

Interim Progress Points & Chair Review
Whereas a thesis has a generally accepted procedure involving proposal defense, data/evidence collection, and writing, the nature of a "project" invites unforeseen challenges, whether due to creative-design issues, computer or creative software outcomes, unexpected results in videography or photography, interactions with members of the community outside the university, or other imponderables that differ from the kinds of trials that can affect theoretical research. The nature of some projects may also necessitate re-doing certain creative or content elements because of unacceptable quality, experimental techniques, or other issues. In order to avoid untimely misunderstandings at the final review and defense of the project, it is important that students keep committee members informed of their progress and, if deemed appropriate, work with them to seek comments on interim stages of project development. The committee will determine at the proposal defense whether they desire incremental reports or the opportunity to review elements of the project content before reviewing final elements. The committee chair will establish a timeline with appropriate targets for the ongoing development of the project and apprise the committee of such progress as the project unfolds. The committee chair will review and critique the final project, including all written elements, and provide feedback to the student in advance of the final review by the full committee. Once the advisor accepts the final version of the MA project, the student (at own expense) duplicates and distributes the project to the entire committee at least two weeks prior to the date of the defense and public presentation of the project. Project elements provided to the committee members must be complete, readable/viewable, and fully documented.

Project Defense & Submission
Once the project is distributed to the MA Project Committee, the advisor will consult the committee members and, if necessary, convene it to determine if the project is defensible in form and content. If the committee indicates that major revisions are needed, the advisor and
The student will develop an appropriate plan to apply the suggested revisions. The defense and presentation may be postponed until such revisions can be made. The student should schedule the defense/presentation in consultation with the project advisor and committee members. All members must be present face-to-face or via technology. The examination will generally span two hours. The student, with advisor’s input, should reserve an appropriate presentation space through the Graduate Secretary. Public notice of the event must be posted in the SMC building. The MA project presentation is open to the public.

If a student fails the oral presentation, s/he will be asked to do one of the following:

- Modify the project,
- Redo the project,
- Select a new topic and do another project, or
- Report a failure to the Graduate Coordinator, who will communicate with the Graduate College.

Even in the event of a successful defense, a student may be asked to redo portions of a project; therefore, some revision time should be scheduled between the oral presentation and the Graduate College deadline. The student should prepare an electronic copy of the final approved project and upload the copy on the SMC MA Project section of ScholarWorks@BGSU (http://scholarworks.bgsu.edu/ms_smc/)

MA Comprehensive Exam (Plan II Option 2)
The MA comprehensive examination consists of four one hour exams with ten-minute breaks in between: One on MC 6000, one on a methods course (either MC 6300 or MC 6400), and two on MC courses the student selects in consultation with his/her advisor. Students must be tested over courses by at least three different professors. In the second semester, students consult with their advisor to select courses as the topic areas for their exams. Students need to confirm with each faculty member that they are willing to write a comprehensive exam question for them.

Students should then prepare the Examination Schedule Form. The form needs to identify which courses the questions will cover, which faculty member will write the question, which topic, and the semester the exam will be taken. The form should be submitted first to the advisor, then to the Graduate Coordinator. Along with the schedule, students should also submit the Comprehensive Final/Project Approval Form. Both forms must be submitted to the office by the specified deadlines: schedules are due by Sept. 15th for a Fall comprehensive exam, Feb. 15th for a Spring exam, and May 15th for a Summer exam. If the schedule is not turned in by the deadline, it will be considered submitted for the following semester. Preparing for the exam, students are encouraged to meet with the faculty members writing questions to discuss the topic area and the faculty member’s expectations. Faculty members writing questions have to submit their questions at least one week in advance to the Graduate Secretary. One week prior to the exam, the students should check with the Graduate Secretary to ensure that their exam questions are on file.

No reference materials may be used. After the student has completed the exam, s/he will save the final answer on the external memory drive. The student can request for the files at a later time.

Under the supervision of the Graduate Coordinator, the Graduate Secretary distributes copies of the student's exam answers to the faculty readers. Faculty readers are expected to return their responses within two weeks after receipt of the exam answer. Once the faculty readers have turned in their report/evaluation to the Graduate Secretary, students may request from the Graduate Secretary a copy of the faculty response cover sheet and to review their exams. The original exam, the faculty copies of the exam and the cover response sheet remain in the School of Media and Communication at all times.

The professor who wrote the question and at least two other faculty selected by the Graduate Coordinator will read each question. For the students to pass, a majority of the readers must vote to pass them on each of the four questions. Any student who does not pass one or more of the questions may, upon recommendation of the program’s Graduate Coordinator and approval of the dean designate of the Graduate College, be granted permission to retake the second examination of the course(s) he or she failed. Upon failing a second examination, the student
is dropped from the program. The retake examination committee will consist of the original faculty body who evaluated the student's first examination. Each committee member will evaluate the answer(s) independently and report pass or fail to the Graduate Coordinator who will compile all the results and then file them with the Graduate College.
Important Dates & Deadlines

September 1
Spring semester incomplete grade due

September 15
Fall comps application due

2nd Saturday of November, 9:00 am – 12:30 pm (8:00 am – 1:00 pm)
Fall MA comprehensive exams

January 1
Summer semester incomplete grade due

February 15
Spring comps application due

Mid-February
Awards application due
