

JURORS' STATEMENT

We were honored to jury the 67th Bowling Green State University Annual Undergraduate Exhibition. It was an exhausting yet exciting task navigating through the works of art in twelve different categories. Each of these categories demonstrates a broad aesthetic sense and a firm conceptual grasp of their respective media.

Choosing the outstanding works in each category was not easy, given the quality of the work selected by the faculty in the program. In this process, we were both drawn to those works that contained both technical skills and the willingness to take artistic risks. There were works that surprised and challenged us as well as works that affirmed established understandings and traditions. Overall, we were thrilled to see strength and excitement carrying these young artists forward.

We would like to recognize the extraordinary role professors, staff, and parents have played in guiding students through the learning process. Student achievements, in part, are due to those individuals who help students succeed in art, education, and life. Finally, for their talent and achievements, we would like to recognize all students represented in the BGSU 67th Annual Undergraduate Exhibition.
