Need a simple, easy-to-create portfolio?

1. Gather/Organize your works together in one place.
2. Decide which works to include (7-12 is average).
3. Convert these to PDF files.
4. Create a simple cover page.
5. Combine PDFs into a single PDF file, cover page is first.
6. Name the file "1stName_LastName_Portfolio" E.g. "Jamie_Smith_Portfolio"

Points-to-Ponder When Creating Your Portfolio:

1. Be sure to illustrate self-reflection and growth in your chosen pieces.
2. Content "proves" your talent and skills to an employer/audience.
3. Combines all life-experiences into one collection.
4. Be positive. Glass half-full, always.
5. Demonstrate intellect in combining classroom learning with professional experience.
