(A) Policy Statement and Purpose

The purpose of this policy is to establish a public standard for engagement with social media on any university-administered social media account. All posts and comments made on any university-administered social media account must adhere to this policy.

BGSU faculty and staff may use university-administered social media accounts to communicate factual information regarding the University.

(B) Policy Scope

The guidelines in this policy pertain to anyone who posts or uploads a comment, message, or other communication to any university-administered social media account. This includes those who have no affiliation with BGSU.

(C) Definitions

1. Social media: Internet-based technologies that are typically very accessible and scalable allowing users to post content on topics in various forms. Some forms of social media include wikis, blogs, podcasts and forums. Examples include Facebook, Twitter, and Wikipedia.

2. University-administered social media accounts: Social media accounts having a direct affiliation with Bowling Green State
University. These include accounts operated by academic departments, schools, colleges, and centers; intercollegiate athletics; university divisions and offices such as diversity and belonging and student engagement; and executive leadership.

(D) Policy

Some university-administered social media accounts allow audience members to post comments on the university’s communications. BGSU moderates its university-administered social media accounts. The university will not delete comments because of the viewpoint expressed. But BGSU does reserve the right to remove comments, messages, and other communications and restrict access to users who violate the guidelines in this policy.

(j) Content that discloses any security record or infrastructure record as defined in Ohio Rev. Code 149.33;

(k) Content that discloses personally identifiable information such as street or email addresses or phone numbers, unless that information is needed for official BGSU business purposes.

(2) Consequences for Violation

Any comment that violates the guidelines may be removed from each university-administered social media account in which it appears.

Depending on the circumstances, the content and the user may be reported to law enforcement or other authorities.
