Classification Specification:
Air Quality Technician

Classification Number: 52291  Pay Grade: 26
Effective Date: September 27, 2013  Current Exemption Status: Nonexempt

Position Summary

Repairs and performs preventative maintenance on air conditioning and heating systems and units, refrigeration systems and pneumatic and electrical controls under general supervision. Monitors and assesses issues in the Building Automated System (BAS). Also may perform a variety of routine, general and preventative maintenance on other building equipment, fixtures and structures.

Essential/Primary Duties

– Completes work orders to repair air conditioner and heating systems and units, refrigeration systems, pneumatic and electrical controls, pumps, motors and fans. Installs air conditioning units, including both window and central systems, heating units, dehumidifiers, pumps, motors, fans and pneumatics. Resolves issues of airflow related to space comfort.

– Monitors and assesses issues in the BAS (Building Automation System). Performs needed resets, adjustments, or repairs either through the BAS or out in the field.

– Coordinates issues related to fume hoods and office health concerns.

– Oversees new building warranty issues. Verifies the BAS is comparable to the building and that systems operate according to the sequence of operation.

– May perform a variety of routine, general and preventative maintenance on other building equipment, fixtures and structures, including electrical, plumbing, doors, pools, custodial equipment and computer equipment.

Experience and Education

Experience
– Three to six months related experience required

Education
– High school diploma or GED required
– Must have and maintain a valid driver’s license and be insurable under the University’s insurance
