

SUMMER AI CAFÉ

Sip, Learn, Collaborate

June 26, 2025 • 9 am - 12 pm
BGSU @ Levis Commons

FREE Professional Learning

Educators and administrators are invited to engage in collaborative brainstorming sessions focused on the evolving role of artificial intelligence in education.

Attendees will rotate through a series of 30-minute, small-group discussions centered on key topics such as AI tools in the classroom, responsible AI usage, prompt engineering, using AI to Enhance Creative Thinking, and others.

Come share ideas, gain insights, and connect with fellow professionals as we explore the potential and challenges of integrating AI in education.

If future AI professional development is offered by BGSU during the 2025-26 academic year after school/early evening, are you likely to attend?

“ I LOVED the initial energy walking into the environment. I LOVED that we started promptly. It set the tone for having respect for the schedule. I LOVED the 10 minutes in between sessions. It allowed for restroom breaks, networking, snack refills, additional questions for the presenters etc... I also appreciated the sessions beginning promptly. Again, it shows respect for our time as well as the presenter's time. I appreciated that everyone in orange had the attitude that we ALL are learning and that they were not experts. It made it less threatening of an environment coming from a person who never touched ChatGPT. ”

“ This was very useful. I knew very little about AI coming into this. I am excited to learn more about them and how to make my teaching life easier using AI. ”

“ This was great PD! I didn't realize what I was missing out on. I am thankful for the tools I learned to help me save time & energy. I appreciate everyone that put this on. ”
