

## Consecutive Number Exploration

The statements below are examples of sums of consecutive counting numbers.

$$3 + 4 = 7$$

$$5 + 6 + 7 = 18$$

$$2 + 3 + 4 + 5 + 6 = 20$$

Write each number below as the sum of consecutive counting numbers in as many ways as you can:

1	21
2	22
3	23
4	24
5	25
6	26
7	27
8	28
9	29
10	30
11	31
12	32
13	33
14	34
15	35
16	36
17	37
18	38
19	39
20	40
