Kindness Rocks

What You Need

- Smooth River Rock
- Paint Brushes
- Paint
- Modge Podge

What To Do

1. Paint your rock. On the front you can paint a picture, saying, or fun fact! Let all of the paint dry before working on the back.
2. On the back of the rock, add instructions for the finder of the rock.
Find us on Facebook at Ohio Rocks. Post a picture then re-hide. Use the hashtag so I know you found me please! **#stroseSTEMinthepark**
3. Use the modge podge to seal the paint and instructions.
4. Hide your rock! Find a fun place that others visit to hide your rock. Make sure you leave the rock in a place that is visible so that someone else can find it.

The Science

Kindness rocks are a simple way to spread joy and make connections in a community. Simply decorate a rock and hide it. When the next person finds the rock, they will take a picture and post it to a Facebook page. Now it is their turn to re-hide it! The cycle keeps going. Not only do kindness rocks spread kindness and joy, it is also a way to encourage others to get outside! Challenge yourself to find a fun new place to hide your kindness rock for others to find.
