

# CONVENTIONAL FARMING

Fruits, grains, and vegetables travel a long way to get on your plate. But where do they come from? To find out, help Freddie Falcon collect letters in the maze in the correct order to fill in the blanks below to reveal the answer!

Fruits, grains, and vegetables are grown in the \_\_\_\_\_  
or a \_\_\_\_\_, either locally or \_\_\_\_\_ away  
with fertilizer, pesticides, herbicides, \_\_\_\_\_,  
and \_\_\_\_\_.
