

Session Four
Conceptualizing and Representing Linear Relationships
Task: Growing Dots 1 Extension

Study the sequence of dots.

1. Determine how many minutes will have elapsed when you have 25 dots. 73 dots. 99 dots.
2. What is a way that you can easily find the number of minutes if you know the number of dots?
3. How can you tell if it isn't possible to get a certain number of dots?
