

Compact Planning Process 2008-2009

BGSU's compact process coordinates planning and accountability to achieve critical institutional and unit goals reflected in the strategic plan. The compact document is a written agreement - available to the public - between the University's management and a campus, college, or support unit that aligns broad University goals with the directions, investments, and actions of the unit.

Compacts are used to:

- **Identify strategies and partnerships to achieve University-wide goals and priorities using available resources**
- **Identify areas for investment and/or reallocation**
- **Update long-range capital and space plans and priorities**
- **Provide a basis for accountability in evaluating performance.**

The annual compact document includes:

- **A summary of the unit's progress during the previous year**
- **Major goals for the coming year(s)**
- **Action plans to achieve the goals**
- **Descriptions of key University issues as they affect the unit.**
