Minor Climbing Wall Release
- - - Important: This is a Legal Document - - -

Please read and understand this document before signing. If you have questions please ask us or consult an attorney.

The Outdoor Program, Recreation and Wellness, and Bowling Green State University wants our guests to have a rewarding experience. We wish to inform our climbing wall participants and their parent(s) or legal guardian(s) that Climbing Wall activities are not risk free. The same elements that contribute to the unique character and fun of climbing wall activities such as physical exertion and risk can cause loss or damage to equipment, injury, illness, or in extreme cases, permanent injury or death. We want participants and their parent(s) or legal guardian(s) to know in advance what to expect and to be informed of potential risks. We ask that both the minor and a parent or legal guardian read, sign and return this document to an Outdoor Program staff member.

ACKNOWLEDGEMENT OF RISKS

Rock climbing and using indoor climbing walls like all outdoor recreation activities are hazardous. The following accidents and injuries may occur as a result of these climbing on the wall:
1. The obvious accidents that occur in climbing are falling. Whenever you fall, you may fall only a few feet or all the way to the floor. As you fall, you may hit objects or the wall that are in your path.
2. When the rope catches your fall, the jolt from the rope may cause injury.
3. Falling to the ground from any height may cause serious injury, paralysis, or death.
4. In addition to the hazards of falling, objects falling off the wall may hit you. Holds, climbing equipment, and even people may fall and hit you as you are standing at the base or while climbing.
5. The extreme conditions in which climbing equipment is used in conjunction with the damages caused by the wall can cause climbing equipment to fail.
6. Improper use of the equipment or not properly tying in will result in injury. The climbing hold may spin or break. As you climb, you may pull out protection from the wall or quick draws may unclip.
7. You may experience cuts, scrapes and rope burns from holding on to the holds or wall.
8. Hair or loose clothing may get caught in equipment causing personal injury or damage to clothing.

This list is not an exclusive or exhaustive list of possible injuries, trauma or accidents that may occur while climbing. It is also possible that some participants would suffer mental anguish or trauma from their experience or injuries.
